

Scenario 1

The Need for counselling.

Wife: look we need to go talk to someone. We need help.

Husband: ignores her...

Wife raising her voice a bit out of frustration: did you hear what I said? I really can't take this anymore.

Husband: we don't need counselling. What's a counsellor gonna do?! I don't need anyone to tell me what to do..

Wife: I'm going to ring the sheikh...

Husband: I dare you.. I swear to God if you call anyone, that's the end of it... I've told you I don't give you permission to talk about our business to anyone let alone the sheikh!

You're just making a big deal out of nothing.

wife: nothing?! you argue with me every time you come home from work. I don't know what's wrong with you, you never talk to me...

husband: I told you, you make me angry

it's you, I come home tired and all you do is nag, nag, nag!

wife: I'm nagging for you to spend time with me

its all just you your work and friends and family

what about me?!

husband: I take you on picnics I take you out every week

what do you want to sit at home for,

you're lazy.

wife: you take me to your family and friends picnics, you take me to eat at your mum's

what about you and me?!

Husband: What's your problem with my family and friends?!...
